

SABSA Workshop A3-1

Foundation Level Competency Review

Task One (Individual)

Read the entire Foundation level competency map (coloured green in the competency spreadsheet).

Wherever you find yourself unsure of the material to which reference is made, search the PDF of the current version of the Foundation course file and read the relevant sections. The objectives are embedded in each section of the Foundation course materials for ease of searching.

You can test your knowledge and comprehension of the Foundation materials by attempting the sample questions provided at the end of each course section. The answers are listed on the following pages of this workshop document.

If you still have trouble with understanding the competencies you should have, ask the course leader and/or discuss the issue with course colleagues.

Finally, make a list of any outstanding issues with reference to the slide number for later discussion in open forum.

The course leader will facilitate an open forum (if required) to discuss all outstanding issues.
